## 1. CODE REGISTRY

Code	Description	Dimensions (mm)	Weight	Colour	Pkg. / Pallet
RET22-12070	Dk Band - Waterproof Band tape - PP	120/70	2,1 kg/cf.	Light Grey	50m. / 100 boxes.

**MATERIAL** Made of PP (polypropylene), with polymeric elastomer coating

## 2. USE

Used to reinforce the joints between wall and floor.

## 3. TECHNICAL DATA

Caracteristics	DIN	Value
<b>Burst pressure</b>	Internal Test	1,1 bar
<b>Longitudinal breaking load</b>	DIN 527-3	153N/15mm
<b>Lateral breaking load</b>	DIN 527-3	35 N / 15 mm
<b>Longitudinal extension at break</b>	DIN 527-3	31%
<b>Lateral extension at break</b>	DIN 527-3	503 %
<b>Force absorbed at 25% of lateral elasticity</b>	DIN 527-3	0,57 N/mm
<b>Force absorbed at 50% of the lateral elasticity</b>	DIN 527-3	0,66 N/mm
<b>UV resistance</b>	DIN 527-3	< 500 h

Substance	Resistance after 7 days of immersion in the following chemical agents at room temperature. (+ = resistant; 0 = weakened; - = not resistant)	
<b>Hydrochloric acid 3%</b>	+	Internal Tests
<b>Sulfuric acid 35%</b>	+	
<b>Citric acid 100 g / l</b>	+	
<b>Lactic acid 5%</b>	+	
<b>Potassium hydroxide 3% / 20%</b>	+ / +	
<b>Sodium hypochlorite 0.3 g / l</b>	+	
<b>Salt water (20 g / l Marine salt water)</b>	+	

# DK BAND - WATERPROOF BAND TAPE - PP

## 4. TECHNICAL SPECIFICATION

Specification	Description	Unity	Price
<b>Dak.B.RET22.12070</b>	Supply and installation of waterproofing band tape made of anti-alkaline fabric. Total height of 120 mm with a central band of 70 mm. Packaged in boxes. Made of PP (polypropylene) with polymeric elastomer coating. Used to reinforce the joints between wall and floor.	cf.	-
