# CHANNEL DAKUA+ SLIM STAINLESS STEEL GRATING

## 2. DESCRIPTION

Channel with a modern, essential and funtional design.  
The block body channel is made up of AISI 304 stainless with a 90° bended external edge that allow to be installed closed to the wall.  
Moreover, thanks to the absense of welds and screws, ensures easy cleaning and high hygiene standards. The body channel, contains a siphon, a removable basket and a gasket.  
The flow rate (25 litres/s) is high, even with lowered heights.  
The kit is ready for installation, with the provided pre-assembled grating and includes a waterproof pre-cut polyester sheet, which is shaped to the edge of the channel to protect it against infiltration under the floor.

## 3. USE

This channel is used for the shower water collection, fitting with the floor and embellishing the surface aesthetics.

## 4. VOCI DI CAPITOLATO
