### MATERIAL

Made of AISI 304 stainless steel. 12-gauge thickness.

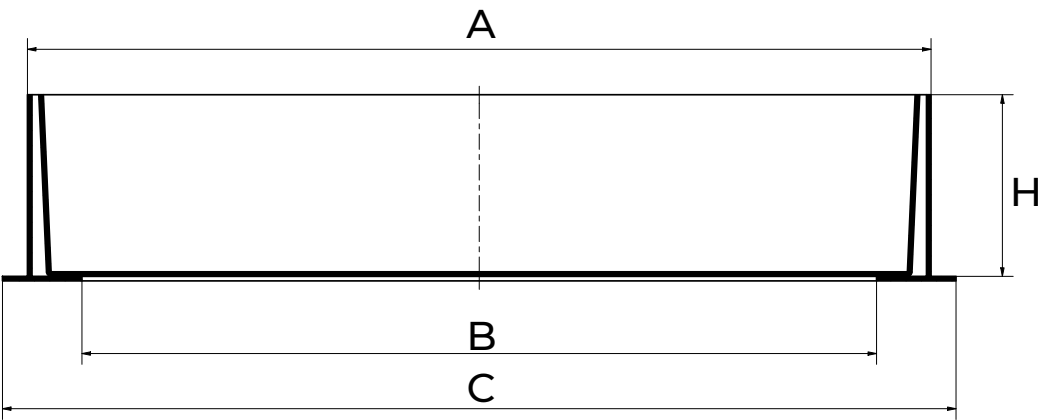

## 2. DESCRIPTION

Fill seal and handle for lifting. Available for height H50 and in the dimensions specified in the table.

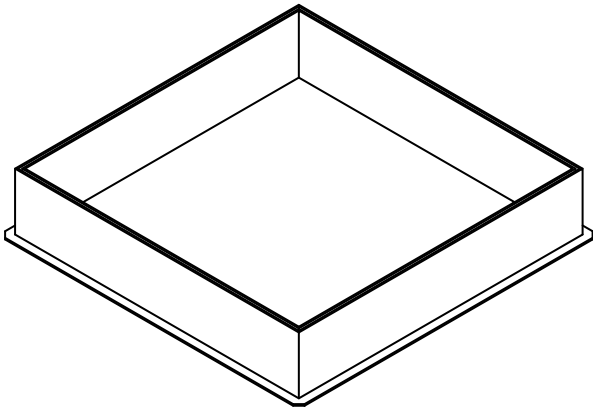

## 3. USE

Used to hide the presence of the collection catch-pits, giving an aesthetics continuity to the pavement.

# HEAVY STAINLESS STEEL RECESSED COVER

| Code                     | A   | B   | C   | H  |
|--------------------------|-----|-----|-----|----|

| ZIN07-6860EI - 600 x 600 | 598 | 550 | 620 | 50 |
| ZIN07-6861EI - 700 x 700 | 698 | 650 | 720 | 50 |

## 4. WARNINGS FOR USE AND INSTALLATION

- Accurately measuring the pit ensures the optimal choice of manhole cover to install.
- During installation, follow standard installation practices, paying close attention to cleanliness. Properly protecting the handle and removing any dirt ensures the lifting system operates correctly and reliably over time.
- Additionally, periodically removing the manhole cover to clean its frame helps ensure fast and easy lifting for years to come.

## 5. TECHNICAL SPECIFICATION

| Specification      | Description                                                                                                                                                                                                                                                    | Unity | Price |
