RET04-181RP	Orange yard meesh PRO	160	1,80 x 50	90 m ²	3.780 m ²

MATERIAL Made of polyethylene

2. DESCRIPTION

Mono-oriented extruded avoid mesh, orange in color with heights ranging from 1,00 to 1,80 m.

3. USE

Fencing of site areas, to indicate the presence of excavations and/or interruptions or to delimit areas dedicated to events. Made of polyethylene, it is particularly resistant to mechanical stress, tearing and aging from exposure to the elements.

4. TECHNICAL SPECIFICATION

Item	Description	Unit	Price
Dak.E.RET04-1x1RP	Supply and installation of orange-colored, mono-oriented extruded mesh with an ovoid pattern (heavy-duty grade only), with a height ranging from 1.00 to 1.80 m. Available in 160 g/m ² Professional weight, in 50-meter rolls. Packaged in cellophane. Made of polyethylene, it is particularly resistant to mechanical stress, tearing, and weathering. For fencing off construction sites, marking the presence of excavations and/or road closures, and delineating areas designated for events.
