2. DESCRIPTION

ARKIMEDE 121 self-leveling telescopic support, the perfect solution for elevated decking with variable slopes.

This product combines the flexibility and extreme ease of use of the Arkimede line (with fixed head) with the added bonus of an integrated self-leveling head (for slopes from 0 to 5%).

It is height adjustable from 121 to 226 mm (optional extensions excluded) and can be combined with all Arkimede 35 accessories (except for the 25 and 50 mm extensions).

The base allows for proper water drainage.
