PVC CORNER BEAD WITH DRIP PROTECTION AND STRIP

2. DESCRIPTION

Corner bead with claw-shaped angle, made of heat-sealed R131 fiber glass mesh. The plastic profile is visible and is protected by a removable strip, that can be removed after the leveling and allows the surface painting

3. USE

Used to reinforce and protect horizontal corners (lintels, balconies, stringcourses, overhang elements, etc.), serving as a drip edge. Paintable.

4. TECHNICAL SPECIFICATION

Item	Description	U.M	Price
Dak.B.ZIN33.1669RVA	Supply and installation of claw-shaped corner profile with heat-sealed R131 fibreglass mesh. The plastic profile is exposed and protected by a removable strip once the skim coating and painting of the surface are completed. Made of PVC and fibreglass mesh. Used to reinforce and protect horizontal corners (lintels, balconies, string courses, overhang elements, etc.), serving as a drip edge. Paintable. Dimensions: h. 100 x 100 x 2,500 mm.....	-	-
